

Clean Motion secures vehicle orders from NEOM for the luxury island Sindalah

The electric vehicle manufacturer, Clean Motion, has received an order to supply vehicles to NEOM for deliveries on the luxury island, Sindalah, in Saudi Arabia. The order is valued at 328 500 EUR.

Earlier in May, Clean Motion signed a framework agreement to develop and deliver an integrated solution for last-mile deliveries tailored for NEOM.

NEOM is a new region in northwest Saudi Arabia built from the ground up. The island of Sindalah is situated off the coast in the Red Sea and will be the first destination to open. Clean Motion's system for last-mile deliveries, including specially customized vehicles, trailers, and roll containers will handle all logistics on Sindalah.

The order consists of vehicles specially modified for NEOM, and the shipment will start at the beginning of October. Additional equipment and options will follow.
